# 2019 MODERN LIBRARY AWARDS

The 2019 *Modern Library Awards (MLAs)* is proud to announce its review scores from participating companies in this special supplement to *Library Product News*. The MLAs are an unbiased program recognizing the elite products and services that serve the library industry. Companies provided concise write-ups of their products/services and submitted them for review. These were then sent out to the *LibraryWorks* readership — librarians in public, academic, K-12, and special libraries — who then submitted their reviews on a 1-10 scoring system. Each judge had to have had experience with the product or service, and each participating company also had to provide three references of library placements to submit their forms. The *LibraryWorks* staff had no influence on the scoring.

6.5-7.4 Silver      7.5-8.4 Gold      8.5-10.0 Platinum      Highest Overall Scores – Product of the Year and Service of the Year

Mackin  
MACKINVIA

MackinVIA is a free digital content management system created to provide schools with easy access to their collection of eBooks, digital audiobooks, read-alongs, databases, websites, videos, and more. Mackin designed the platform from the ground up with the needs of students, teachers, librarians, and administrators in mind. With a single login, users can view, utilize, and manage all of the school's digital resources on any desktop, laptop, or mobile device – in the library, in the classroom, or on-the-go. Working with an ever-growing list of digital publishers, MackinVIA provides

access to more than 2 million digital resources in a variety of formats. eBooks are available in a traditional format and with the added ability to host EPUB3 fixed-format materials can be viewed on the platform as the authors and illustrators originally intended. Interactive eBooks integrate video, audio, animation, and activities with the text to enrich the learning experience. New to MackinVIA are Mackin Read-Alongs™, a special kind of eBook enhanced with embedded audio, and synchronized to offer automatic page-turn functionality. All narrations are professionally performed by talented voice-actors with each word highlighted as the audio is read. Reading a Mackin Read-Along is the optimal supported independent reading experience for any beginning or striving reader. They connect the sounds that letters and words make with the letters and words themselves. A read-along is the connect-

tion point between auditory and linguistic learning. It fuels the development of increased phonemic awareness, fluency, vocabulary, and reading comprehension skills. Most importantly, read-alongs build confidence. Mackin Read-Alongs are hosted in Mackin's FREE digital platform, MackinVIA, so readers will be able to enjoy all of the great tools of the platform, including offline reading, bookmarking, and note-taking. MackinVIA features a student-friendly interface and a growing list of cutting-edge features. Professionally-narrated digital audiobooks can be streamed for on-demand listening

Dear Reader,

I hope you enjoy the 2019 Modern Library Awards special edition and that you take advantage of the outstanding products and services offered by these respected companies. Our entire team would like to thank all judges and applicants who made the 2019 program such a success. Your enthusiasm and encouragement kept us going through another very busy award season and we were overwhelmed by the positive response.

Congratulations to the following judges who were randomly drawn to win a \$25 Amazon gift card: Sandra W., Mary Anne F., Maisam N., Margaret K., Carrie D., Norma W., Michele S., Bethany K., Nancy Jo L., Mary Jo B., Craig A, and Rebecca P.

If you are a librarian and are interested in acting as a judge for the 2020 Modern Library Awards, please email the following information to [jenny@libraryworks.com](mailto:jenny@libraryworks.com): name, title, email address, and library name. If you have a product or service that you would like to enter in the 2020 Modern Library Awards, please email the following information to [sharon@libraryworks.com](mailto:sharon@libraryworks.com): name, title, email address, company name, and product/service name(s).

Products that were entered in the 2019 Modern Library Awards are eligible to be entered into the 2020 program.

If you have any questions regarding the MLAs or thoughts to improve, I'd love to hear from you! Please feel free to contact me. We look forward to seeing many of you in Seattle at the ALA Midwinter Conference.

Best regards,

Jenny

ABOUT LIBRARYWORKS

LibraryWorks helps administrators to make informed decisions about library technology, automation and software, collection development and management, facilities and furnishings, staffing, purchasing, and other areas that drive effective strategic planning and day-to-day operations. Our family of resources can enable you to identify best practices, monitor trends, evaluate new products and services, apply for grants and funding, post or find a job, and even enjoy some library humor.

The Modern Library Awards (MLA) and LibraryWorks, Inc. are not responsible for representations made by MLA honorees.

or downloaded for offline enjoyment. Educational databases are vetted to allow students to safely conduct research without the threat of inappropriate material or unwanted ads. Streaming video allows educators to reach students with varied learning styles. Additionally, teachers, librarians, and administrators can add their own digital materials.

**HEAR FROM THE JUDGES:**

“I use MackinVIA literally every day with my students! It is by far the BEST platform to house digital content for my students and teachers. With the LDAP authentication for single sign on, everything is on one place for my students! I truly LOVE MackinVIA!”

Northern Micrographics

**Northern Micrographics**

**PRESERVATION IMAGING SERVICES**

For over 60 years, Northern Micrographics has been a trusted partner in providing preservation imaging services to many valuable collections.

Whether on film, in print or born digital, we can help in all phases of your imaging project. We can provide a full range of imaging services, including 16mm/35mm/105mm microfilming,

16mm/35mm microfilm duplication, digital scanning of microfilm, scanning of loose documents up to E-size, as well as bound books. We also offer a variety of post processing options (e.g. deskew, crop, OCR), metadata development, data conversion and book binding services.

We collaborate with you to ensure all projects will adhere to specific requirements. Our state of the art production facility was designed for secure and proper handling of original source documents. Our production facility contains an ANSI-standard storage vault that is fireproof, waterproof, and temperature/humidity controlled conforming to the appropriate ANSI storage standard. You can rely on us to treat your materials professionally and with care.

We will help you enhance visibility and access to these unique materials. Our content management software, ProSeek®, will help you create searchable access to the items in your collections that your patrons want to see. Hosting options are available.

**HEAR FROM THE JUDGES:**

“Northern Micrographics is the most professional and thorough company I have ever worked with, professionally or personally. I am constantly amazed with their attention to detail, willingness to work with their customers, and patience when dealing with issues created by the customer. If 10 is the top rating, I would give Northern Micrographics a 25!”

3branch Products Inc.

**MAKER FLEX TABLES**

3branch maker flex™ tables bring comfort, height-adjustability and mobility to the next level. Created to be either fixed height, height adjustable or height adjustable with flip-top / nesting option, maker flex™ maximizes flexibility within a space. Casters let one person quickly set up or rearrange a room without lifting or flipping tables. The height adjustability feature allows individuals to easily change the work surface height and to work more comfortably. Other key features include:

- Strong steel t-bases offer easy ADA access and maximum clearance. Bases are designed for many years of heavy use. Brushed stainless steel or powder-coated finishes available to match the décor within the space.
- Work surfaces include solid maple butcher block or many high-pressure laminate colors and finishes.
- Wide range of work surface sizes to fit any space with lengths up to 72” long and up to 36” deep. Standing or seated heights available with the fixed height base.

Whether in a dedicated room or shared area, 3branch maker flex™ tables provide

## AWE Learning

### AFTERSCHOOL EDGE

AWE Learning's AfterSchool Edge workstation (ASE), for ages 6 - 12, is the perfect complement to our Early Literacy Station. The ASE is comprised of 70+ age-relevant educational software titles. With more than 4,000 learning activities, the ASE will provide hours of fun! The content spans all curricular areas: math, science and nature, social studies and geography, reading, art and music, writing and computer skills, and reference. The breadth of content makes the ASE ideal for reme-

diation, enrichment, reinforcement, and homework help.

The ASE is a plug-and-play unit; it is ready for use out of the box, providing more time for learning! With pre-loaded content, it eliminates the possibility of users accessing unwarranted websites, and gives library staff and parents confidence that the children are interacting and learning on educational content. The Administrative Control Panel allows library staff to limit the content that users have access to; this is perfect if the library is having a specific program or focus. For example, on Math Mondays, you can limit users access only to math content.

The ASE is available as an All-In-One or tablet unit, both featuring touchscreen capability. Customers can access the Customer Portal from any internet-enabled device to view utilization reports to highlight and justify their return on investment.

## AWE Learning

### EARLY LITERACY STATION

AWE Learning's Early Literacy Station™ (ELS) is designed specifically for public libraries' youngest patrons, ages 2 - 8. Available in English, Bilingual Spanish, or Bilingual French, the ELS offers more than 70 pre-loaded educational software titles, and spans all curricular areas: math, science and nature, social studies and geography, reading, art and music, writing and computer skills, and reference. The large variety of content, including interactive e-books, provides early learners with hours of fun and learning!

The ELS is plug-and-play; the workstations are ready for use right out of the box. With no internet connection required, the ELS creates a safe learning environment and eliminates access to unwarranted websites. By connecting

## AWE Learning

### LITERACYGO TABLET

LiteracyGO™ Tablet, launched in June 2017, introduces your youngest learners to digital technology. LiteracyGO features 18 STREAM-aligned (Science, Technology, Reading, Engineering, Arts, Math) educational titles, perfect for ages 2 – 5, with some content spanning up to age 8, and is the perfect complement to our flagship product, Early Literacy Station™.

LiteracyGO is compiled of pre-loaded learning activities, creating a safe and secure learning environment for young patrons. We have done the research to select award-winning content for you to provide to the early learners in your community. Young patrons can build their early literacy skills by learning the alphabet, practicing sight words, and interacting with e-books. Math titles offer content to practice adding and subtracting, comparing, shapes, sorting objects and more! Children can get creative with art applications and singalong with nursery rhymes. With more than 300 learning activities, LiteracyGO provides hours of fun!

LiteracyGO features four brand new, colorful interfaces: art classroom, woods, barn, and under the sea. Each LiteracyGO

Tablet comes with a colorful bumper, kickstand and strap. Additionally, access the AWE Learning Customer Portal to view utilization statistics of your tablet. View and utilize these usage reports to show return on investment for grant awards, or to plan programs at your library.

## Biblionix

### APOLLO

The Apollo™ ILS/LSP continues to help customers reach new heights. Apollo was designed from the start to be cloud-based in a multi-tenant environment. That's state of the art architecture. As Marshall Breeding stated "Apollo stands apart as a public library system delivered by a modern multi-tenant platform..."

Also in the clouds are Apollo's accolades:

- Product of the Year from Modern Library Awards for 2016 AND 2017
- Top of the charts in Breeding's Perceptions surveys for 7 years, through 2018
- Modern Library Awards, Platinum Award 2015, 2016, 2017, 2018, and 2019
- An extraordinary customer retention rate of over 99% over 10+ years

Apollo is solely for public libraries. That's a promise we've made to our customers. There are no schools or colleges that use Apollo. So it's not cluttered with capabilities that you don't need. Our brains aren't cluttered either; all we think about is you.

Groundbreaking capabilities are normal with Apollo, like VersaCard® ad-hoc resource sharing/consortia and Gabbie™, 2-way texting with patrons. Then there's Reserve Express™, where patrons subscribe to their favorite authors. Plus, we've recently added a Kids' Catalog, faceted searching, and SQL querying.

And finally, a very down-to-earth fact: we don't bind you to Apollo or charge to get your data out. You can cancel at any time and receive a pro-rated refund.

Plus, we believe that it's your data and you should be able to download it in toto, anytime you want, for free, for any reason. And you can.

[\[CLICK HERE FOR MORE\]](#)

## bibliotheca

### CLOUDLIBRARY

Beginning as a lending system for eBooks and eAudiobooks, cloudLibrary by bibliotheca is an evolving digital solution that offers an exceptional user experience and allows libraries to integrate their physical and digital experiences.

With easy sign-in as well as one-click borrow and download, users can browse your collection and be reading in seconds, with no need to visit multiple sites or log in to multiple platforms. The feature-rich app includes the ability to publicize library events, recommend titles, and more. In addition to conventionally purchased digital titles, cloudLibrary also offers pay-per-use titles and the ability to share digital titles with participating libraries through cloudLink. Both features are designed to maximize library budgets and circulation.

Continuous innovation and evolution have resulted in new cloudLibrary modules that can be used in concert with, or independently from cloudLibrary digital content. The assist module provides a virtual library card and allows users to keep track of their borrowing history, favorite items, receive reminders, and manage receipts. The checkout module enables users to check out physical items directly from their smartphones and provides interactive receipts that let readers favorite, renew, and sort and filter items, truly integrating the physical and digital library experience.

## bibliotheca

### FLEX AMH

Create the perfect return and sorting solution for your space and budget with bibliotheca flex AMH. Providing libraries with the best overall value, bibliotheca simplified the materials handling process, so libraries can evolve their service and deliver the best experience for their communities.

The flex AMH's fully modular design allows bibliotheca to customize the solution to fit any library space – from a simple one-bin solution to a multi-floor, multi-room installation. The flex AMH can be easily integrated with any standard book drop, allowing users to quickly return multiple items at once. The items are separated and accurately processed in a fraction of the time required for manual handling. By automating the collection of materials from many return points, libraries can expedite the return process and get materials back on the shelf in record time.

We build your library installation

around the specifications you provide and ensure our modular system perfectly fits your existing space. There are many factors to consider when choosing the right solution for your library. Our dedicated team will guide you through the process, making it easy and simple.

The bibliotheca flex AMH solution is compatible with RFID, EM or barcode technologies. There is no need to convert your collection to a specific format to utilize this innovative solution.

[\[CLICK HERE FOR MORE\]](#)

## bibliotheca

### OPEN+

open+ is a comprehensive system that allows libraries to provide more flexible hours, extending library access and making library resources more available to the communities they serve. The open+ solution allows libraries to easily control building access, security, and automation through one efficient central management hub.

Seamlessly integrating with existing ILS/LMS and library solutions, open+ enables libraries to complement existing staffed hours with unstaffed open hours while monitoring library activity, computer access, PA announcements, and more.

The flexibility to provide unstaffed hours allows libraries to increase the use of their space and resources, grow circulation, and focus on community outreach.

In use in over 500 libraries in Europe for over a decade, bibliotheca's open+ is now available to North American libraries, as well.

[\[CLICK HERE FOR MORE\]](#)

## bibliotheca

### SELF-CHECK 500

The bibliotheca selfCheck 500 has been engineered from the ground up to provide a class-leading self-checkout experience. It runs the full version of quickConnect, delivering the best possible self-service user experience.

The large, full-touch display provides more room for larger icons, buttons and text, which means that users can quickly and easily step through the self-service transaction while enjoying an engaging, highly visual branded library experience. The wide angled reader easily reads a wide range of membership cards, and the selfCheck 500 is compatible with both RFID and barcode technology.

The selfCheck 500 is available in desktop or free-standing kiosks. This choice gives library users the same experience and aesthetic in the library, regardless of where the units are positioned, and allows libraries the flexibility to decide which design is most suitable for their space.

The selfCheck 500 is a cost-effective self-service option for libraries who are focused on providing a user-friendly experience for their patrons and students.

## Brainfuse

### HELPNOW

Brainfuse is an entirely unique educational service. While other educational databases and online homework help services have served libraries for years, Brainfuse's HelpNow™ is the only service to combine both elements into a truly robust learning platform. HelpNow is available in hundreds of library systems nationwide, including Suffolk County, San Francisco, Sacramento, Philadelphia, and Chicago (America's largest online homework help program).

- **BEYOND HOMEWORK HELP:** We have developed the most comprehensive range of academic services available, including live skills tutoring and a robust library of educational content. Because of this, those who switched to Brainfuse from another provider noticed a significant increase in usage.
- **FIELD-TESTED TUTORING:** We consistently outperformed other online tutoring companies in head-to-head trials conducted by library systems.
- **HIGH-QUALITY TUTORS:** All of our more than 3,000 tutors have 4-year college degrees and participate in a rigorous selection and training process.
- **STATE-ALIGNED SERVICES:** Tutoring, Skills Lessons, and Tests are aligned to State and Common Core Standards.

We are one of the most experienced tutoring companies in North America having completed over 10 million one-

to-one online tutoring sessions since 1999. We remain committed to providing high-quality academic support and continually meet student needs through innovative features and services. Learn more at [brainfuse.com](http://brainfuse.com).

## Comprise Technologies

### SMARTPAY

SmartPAY allows patrons to make fine/fee payments and donations at a library's website. SmartPAY links with all leading ILS products to automatically post payments of fines, fees or other charges. SmartPAY lets you reconcile payments by individual member library. SmartPAY increases collections because it adds a payment option that is available 24 hours a day – 7 days a week.

SmartPAY features: Fine and Fee Payments, Donations for a Purpose, Pre-payment of Print Account, Convenience Fee Option.

With SmartPAY, patrons can complete secure, fine, fee or other payments, and donors can make contributions, directly at the library's website. SmartPAY meets the Payment Card Industry's Data Security Standard. It increases collections because it is easy, convenient, and secure.

## Comprise Technologies

### SMART ACCESS MANAGER (SAM)

Smart Access Manager (SAM) is the leader in Access Management Software for public libraries. SAM is the only complete, fully integrated software program for managing the use of library public computers. Its comprehensive functionality and state-of-the-art design empower patrons with self-service, relieves library staff of babysitting public PCs, and more efficiently recovers the library's costs for printing and copying. SAM's centralized, web-based architecture enables multi-site systems to centrally manage their SAM PC and Print Management server through a single interface including the reporting aspect. SAM's web-based architecture allows the simplicity of a single, centralized database while providing the flexibility required in a spectrum of library settings. The choices and configurations are for the library to make. SAM utilizes virtual drivers converting all print jobs to a PDF format which then enables patrons to preview print jobs. SAM also supports multiple payment options, account-based system utilizes patrons' existing library cards rather than requiring the purchase of new cards. The account-based design enhances circulation software by allowing the payment of fees, fines, print or other transactions directly from the patron's SAM account without staff intervention. SAM is easy to use! Patrons simply log on by entering their library card number.

## Comprise Technologies

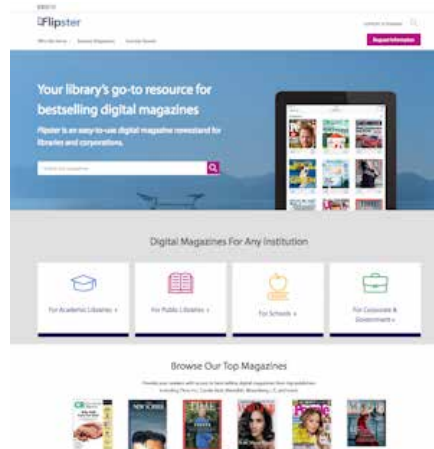

### SMART MONEY MANAGER

Comprise Technologies' Smart Money Manager is a complete, fully integrated Point of Sale System for circulation related financial transactions specific to a library environment. It recognizes patron accounts and links with leading ILS software to check, display, and post payments for fine/fee transactions or other charges. The integrated feature eliminates dual entry, reduces errors, and in doing so, saves time for staff in addition to producing accurate reports. Smart Money Manager processes cash, check, or payment card transactions as well as refunds. Smart Money Manager displays a list of ILS fees, library merchandise, rentals, or other charges that can be paid through an easy to use interface. In addition, Smart Money Manager offers fine/fee waive capabilities as well. It is a software solution that runs on your existing service desk PCs and compatible point of sale hardware. No longer do you need standalone cash registers when you have Smart Money Manager POS system.

## EBSCO Information Services

### FLIPSTER

Flipster is a next-generation magazine service that allows people to browse digital versions of the latest issues of popular magazines, courtesy of the library. Flipster offers an easy, browse-able reading experience for people of all ages and experience levels. Users can browse magazines by category as well as perform searches for specific periodicals. An online newsstand provides a carousel of the most recent issues, as well as a carousel of all issues allowing for quick access to magazines. The table of contents contains links for quick access to articles of interest and links from advertisements and articles within magazines are hyperlinked, opening in separate tabs when clicked. In addition, there is an option to zoom in and out for better readability. Flipster digital magazines are accessible from school, home, work or on the go and can easily be downloaded for offline reading using the enhanced Flipster iOS and Android apps available through Google Play and iTunes. App users can easily locate libraries nearby by enabling geolocation or searching by library name, postal code, city or state. Popular titles in Flipster include American Girl, The Atlantic, Consumer Reports, Cricket, Ebony, Esquire, Forbes, Fortune,

Harper's Bazaar, Highlights, Jet, Men's Health, Money, National Geographic, Newsweek, People, Prevention, Popular Mechanics, Reader's Digest, Rolling Stone, Road & Track, Science News, Seventeen, Sports Illustrated, TIME, Woman's Day, US Weekly and many others.

## EBSCO LearningExpress

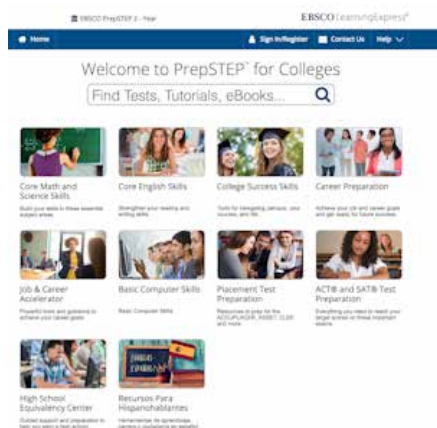

### EBSCO LEARNINGEXPRESS PREPSTEP FOR COLLEGES & UNIVERSITIES

PrepSTEP® for Colleges and Universities is an online platform for 4-year colleges to enhance student retention and academic achievement through supplemental development materials and skill-building resources in reading, writing, math and science as well as tools for career prep, workforce skill-building for advancing to careers or graduate school. It includes easy-to-use centers with related content that is selected, organized and presented for the 4-year college student as a subscription-based, eLearning platform. It gives students the tools to improve core English, math and science skills. The Core English Skills center includes skill-building resources for reading, writing, grammar, vocabulary and spelling. The Core Math and Science Skills center includes resources for developmental math, algebra, geometry, introductory statistics and probability, pre-calculus, calculus and basic science in chemistry and biology. There is a center devoted to College

Success Skills that includes tutorials for organizational strategies, classroom success, academic support, information literacy and personal success. An additional resource includes Graduate School Admissions Preparation. The platform provides self-directed tutorials, e-books, practice sets, reviews and flashcards — learning resources that supplement and support instruction for a wide range of subject content.

## Generation Fifth Applications

### LIBRARY ARCHIVAL SOFTWARE (LAS)

Generation Fifth Applications (GFA) offers the industry leading solution for library archival and retrieval software in high density storage facilities. GFA software was the first to implement the ultra-efficient tray concept to scan, verify, shelve, store, locate and retrieve books and other items efficiently based on barcodes and sizes. Using GFA's flagship product, Library Archival Software (LAS), clients have reported that accessioning new volumes can be scanned at speeds up to 500/hour and verified at up to 800/hour! GFA's new Business Intelligence Module with Interactive Dashboards offers Excel integration, customized queries and reports that can be published directly to the web using standard output formats like PDF and HTML. Over 30 major university and library archives including Library of Congress and New York Public Library, Harvard, Yale, ReCAP and Oxford trust GFA software to manage over 50 million volumes and "never lose a book."

## Huston & Company

### CUSTOM FURNITURE FOR LIBRARY ENVIRONMENTS

Huston & Company designs and builds custom hardwood furniture for library environments. We focus on the design process, wood selection, craftsmanship & finish, incorporating details not found in mass-produced furniture.

- Design services include drawings, estimates, finish samples. Usually free of charge to our clients. We can provide models, prototypes and 3-D imaging.
- We use premium hardwoods and other materials like specialty veneers, stone, glass, metal & laminates.
- We work with architects, designers, project teams to create custom furniture that meets the functional & aesthetic needs of each project. Finding solutions is part of our everyday.
- Our furniture is created by hand, one piece at a time.
- The relationships we develop with our clients are fundamental to the process of building custom furniture. We are approachable & communicative.
- Our furniture is designed & finished to withstand hard, regular use in libraries. Each piece of Huston furniture will last for generations.
- Given the quality & longevity of our furniture, our pricing is very competitive long-term. Our furniture lasts for generations; you'll replace less over time, reducing future spending.
- Our projects range in scope from individual pieces to complete furnishings

for libraries: conference rooms, admin offices, circulation, study & reading rooms, cafes and more.

#### HEAR FROM THE JUDGES:

“Huston’s work is outstanding. The quality of our library and student commons furniture has withstood the test of time (10 years since installation) - and the daily and unforgiving use by nearly 3000 high school boys. The exemplary service and support we received in 2009 would be of the same caliber if we needed it now, 10 years after installation. I would not hesitate to return to Huston for custom furnishings in the future.”

### Innovative

#### INNOVATIVE RESOURCE SHARING (INN-REACH)

Innovative Resource Sharing is a cost-effective way to expand your collection, automate manual workflows, and provide an easy-to-use discovery experience for your patrons.

By joining a resource sharing network, your users are instantly connected to millions of new titles, without the library investing in new materials. These resources are displayed in a shared discovery interface for an intuitive process that enhances the user experience. Users simply search the catalog, and easily check-out

or place holds on materials —without any additional work by library staff. Patrons, students, and faculty receive physical materials in as little as two days, and electronic materials almost immediately.

Resource Sharing makes lending and borrowing materials between libraries as easy as local hold requests. Libraries who join see a dramatic increase in their circulation as a result of the expanded collection and easy-to-use shared catalog. Best of all, participating libraries see their shared resource expenses reduced by 70%.

Innovative Resource Sharing works with all integrated library systems on the market today. Any library, any size, in any region can join and benefit from an Innovative Resource Sharing network.

## Innovative

### MYLIBRARY!

The MyLibrary! mobile app makes borrowing from the library as easy as texting a friend. Now patrons can access library resources, place holds, check out digital items, and visit your library on social media all in one place on their mobile device. Available for iOS and Android devices, MyLibrary! provides real-time interactions with your library's data so users always see current availability. Patrons can easily find items by searching the catalog or scanning an ISBN barcode with their mobile device camera. Meet patrons where they are with mobile access that leads to a better patron experience and greater patron satisfaction.

#### Key Features:

- Scan ISBN barcodes to discover all available library formats in an easy-to-read interface
- Search the catalog by keyword within the app
- Check availability and place holds
- Check out digital items through seamless integration with 3M & OverDrive
- View Patron Account details
- Manage holds and checked-out items with combined view of physical and digital items in Patron Account
- View your library's social media feeds

- from Facebook, Twitter, Instagram, Pinterest, Tumblr, and YouTube
- Remember Me login
- English, Finnish, French, Italian, Polish, Spanish, and Swedish languages supported

### POLARIS WEB APPLICATION (LEAP)

Extend your library and connect with your patrons wherever they are with the Polaris Web Application. This responsive web client brings the power and functionality of the Polaris ILS to library staff through a browser for public services, basic cataloging, and item record management. The Polaris Web App can be used on a desktop, a notebook, or a tablet, freeing staff to connect with patrons and complete tasks wherever it is most convenient – even outside the library walls.

The Polaris Web Application allows staff to get out from behind the desk and still have access to necessary data and functionality with flexible, intuitive workflows.

#### Functionality includes:

- Patron registration, account editing, and patron photo capability
- Check-out, check-in, and renewals
- Fines payment
- eCommerce
- Picklists (for holds, etc.)
- Claims mode
- Reading history
- Personalized search results display
- Item record management, including create, copy and delete
- Bibliographic and Authority record delete
- Bibliographic, authority, item, and patron record sets
- Printing, including receipts, hold pickup, and in-transit slips

- Direct integration with Innovative Resource Sharing (INN-Reach) to replace traditional ILL

## LaptopsAnytime

### AUTOMATED LAPTOP (AND TABLET AND PORTABLE 110V POWER CHARGER) DISPENSING CHECKOUT KIOSKS

LaptopsAnytime's innovations include configurable automated checkout kiosks (12-, 18-, 24- or 30-bays per system) that dispense a wide range of laptops (i.e. from Dell, HP, Lenovo, Apple, Google, Samsung), tablets (all 9.7" iPads and iPad Mini) and 110V portable power chargers on demand to library patrons, recharge devices, automatically return devices back to pre-set image, integration to/with Library ILS and/or LDAP/Active Directory databases, email notifications and full suite of inventory management, audit trail and management reporting functionality.

Up to 30 devices in 5 feet -- laptops, tablets and/or power chargers separated by row! Do you want to move beyond desktops with smart automated dispensing kiosks? Until recently, desktop labs were the king of open access computing and all the rage. Big, boxy machines that sat on or under rows of desks but were stationary and posed problems as seating could only accommodate desktop users. By transitioning to automated dispensing kiosks, libraries/universities can put in seating for all and reclaim their space...moving away from desktops to a more flexible, comfortable cafe like environment. And circulation counters can be freed up for librarians to help with info needs, not hand out laptops like robots. Transform your facility by replacing desktops with a practical, space-saving, self-service solution. Replace 20 desktops and reclaim 150 sq. ft. and lower your power usage by 90% in the process.

**LITTLEBITS CODE KIT**

Finally! An intro to coding in the classroom that engages students through an activity they love: making and playing games. As a bonus, it's easy to teach - even with no prior STEM/STEAM experience. The littleBits Code Kit combines electronic building blocks with approachable drag-and-drop Blockly programming, providing a foundation of coding as a creative tool that can power real-world inventions.

[\[CLICK HERE FOR MORE\]](#)

Lyngsoe Systems

**LYNGSOE LIBRARY MATE™ 2100 EXTERIOR KIOSK**

Library Mate™ 2100 is built to endure all kinds of weather conditions. The steel and aluminum front and high quality touch screen have been carefully selected for added robustness.

Library Mate™ 2100 allows you to extend the self-service return option for patrons to 24 hours a day all year round. Placing additional return options at for example busy train stations.

The automatic hatch door protects the interior of the kiosk and library against rough weather conditions, and receiving unauthorized objects through the hatch. The hatch door can be programmed to only activate when the RFID reader detects authorized material.

The touch screen offers multi lan-

guage functionality, guiding the patrons through the return process. Additional options include printed receipts with a choice of language and text.

As a special option in the Library Mate™ software (v3.30 and newer), you can offer special barrier free functionalities by means of specially designed easy-to-read fonts and voice guidance. Additionally, LED lights (green/red) located near the hatch door will give clear indications what the patrons need to do to make the return process go smoothly.

[\[CLICK HERE FOR MORE\]](#)

Lyngsoe Systems

**LYNGSOE SORT MATE™ 2000 MODULE**

State-of-the-art control system and swift conveyance minimize patrons' waiting time at return by sorting capacity of more than 2,000 materials per hour. The robust and stable Lyngsoe software quickly sorts materials to the correct chute, minimizing the need for staff to handle materials.

A modular concept offering the best functionality on the market on any given footprint – no matter whether you have a small or large library, and no matter how challenging your premises are.

The Sort Mate™ 2000 sorter is designed for continuous operation with minimal maintenance, and normally the maintenance tasks to be carried out by the library staff are limited to cleaning the system at regular intervals – the open, engineered design makes it a straightforward task.

The low noise operation of the sorter modules allows for a pleasant working space around the sorter. Materials are gently moved on special rubber bands until being popped-up and diverted by the rubber-coated rollers.

When a media is conveyed, only the modules conveying materials and the modules, which will soon receive materials, are running. When idle, the sorter

modules enter into sleep mode, preserving energy and minimizing carbon footprint.

Mango Languages

**MANGO LANGUAGES**

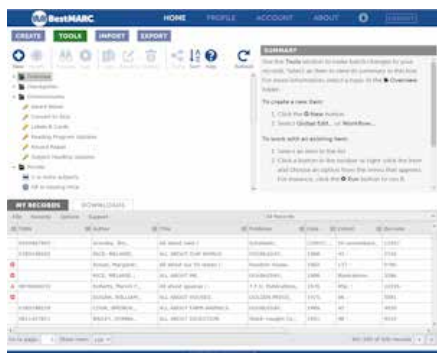

Guided by its core purpose to enrich lives with language and culture, Mango Languages creates engaging language-learning experiences for libraries, schools, corporations, government agencies, and individuals across the globe, in over 70 world languages and more than 20 ESL/ELL courses.

Mango's self-paced learning program teaches through conversation-based methodology and features relevant native-speaker dialogue, cultural insights, and critical-thinking exercises, making the learning material practical and engaging, while complex language acquisition theories are applied behind the scenes.

Mango Languages' methodology applies Intuitive Language Construction, which helps users learn the four key conversational skills necessary to connect with people in a new language: vocabulary, pronunciation, grammar, and culture. Each lesson begins with a culturally relevant conversation, breaks it down into smaller pieces, and then builds it back up in a way that empowers learners to begin comprehending the structure of the language so that they're prepared to confidently practice and apply new words and phrases as they progress.

For you your staff: a stellar customer support team, a client care specialist to help with training, and free promotional materials, available to download or ship straight to your library.

[\[CLICK HERE FOR MORE\]](#)

**BESTMARC**

BestMARC sets the standard in metadata management. Our best-in-class cloud-based MARC management solution makes processing and maintaining MARC records fast, easy and convenient. With up-to-date, accurate metadata for better discoverability, you'll extend the value of the library's collection. The customizable BestMARC tool is a complete cloud-based solution for managing MARC records. Add an upgrade to your subscription to make BestMARC even more powerful. BestMARC Plus comes with streamlined record enhancement features and other key benefits to save you even more time. BestMARC Global adds customizable features for global edits and automated workflows making this our most powerful subscription. In addition, our industry-leading Data Services team provides full-service database management support based for a wide range of needs, including MARC database custom cleanups and MARC records and database migrations and conversions.

It's never been easier to create, edit, and share your records.

- CREATE – search or catalog records quickly from scratch.
- EDIT – fix errors, run enhancements and global edits, and group them into workflows.
- SHARE – global edits, workflows and templates are shared seamlessly

between users, and can be re-run with ease upon import into BestMARC.

Contact Mitinet for a demonstration of BestMARC

**HEAR FROM THE JUDGES:**

“BestMARC is a lifesaver! I can run global edits on import, which saves time and effort and helps keep my records uniform. The z39.50 search feature saves time by easily importing and modifying records from other libraries. With the templates, I can quickly create new records.”

“I've really loved using BestMARC. I like having the ability to build my own workflows that batch edit records to my specifications. The customer support has been amazing. They provided great training when they rolled out BestMARC and then after they have been very responsive when I've had questions. I use BestMARC pretty much every day and I could not be happier with it.”

**Niche Academy**

**NICHE ACADEMY**

Niche Academy helps libraries by enabling them to reach, teach, and empower patrons and staff. Niche Academy is an online learning platform made for libraries.

The platform gives individual libraries their own online academies that can be used as a teaching tool for both patrons and staff.

The platform includes ready-to-use

tutorials for common library services like OverDrive, RBDigital, and Axis360 to name a few. Niche Academy maintains these ready-to-use tutorials and also lets libraries create their own tutorials.

The platform also includes tools for cleanly adding tutorials within your library's own website. These tools make it much easier for libraries to let more people know about the resources they have to offer.

“Niche Academy has proven to be an invaluable tool in promoting our library's growing collection of digital resources and in assisting our patrons in learning how to use them. The Side Slider on the library website drives ongoing use of the academy – in one month alone we had more than 1300 tutorials accessed. The staff at Niche Academy really understand the library's point of view and always go the extra mile to assist with set-up and promotion of the tutorials.” -Lynne Antunes - Dartmouth Public Libraries

**HEAR FROM THE JUDGES:**

“This is a great resource. Our patrons and staff both benefit from the content, which is updated and added to on a regular basis. Support is prompt and helpful. This product is a real gem!”

“Niche Academy continues to be an ally in our efforts of educating our patrons as well as our staff. It's become a go to for many of our educational inquiries, in summary Niche Academy has become our own version of a branch library!”

## OpenAthens

### OPENATHENS

OpenAthens is a federated authentication service that enables single sign-on access to libraries subscribed digital resources. OpenAthens establishes one set of log-in credentials for all library web resources and applications.

OpenAthens integrates with institutions who still use IP authentication. Single links are created that allow patrons access to the information needed whether they are located within their organization or working off-site. It also enables access for people using mobile devices to reach the information they need.

OpenAthens provides flexible control for managing access rights to groups of users. Using new or existing attributes and categories a librarian can control access to specific resources based on licensing requirements as well as the structure and strategic focus of their organization.

Comprehensive usage statistics show how often content is accessed and by whom giving the team who manage the information, insight into the value of the subscriptions and detail into which parts of their organization engage most regularly with their services.

OpenAthens is:

- Easy – seamlessly log users into personal folders for saving favorite resources.
- Designed for librarians - quick and easy to manage accounts and introduce new resources.
- Powerful - assess the value of subscriptions with built-in comprehensive

usage statistics showing how often content is accessed.

- Compatible - integrates with library systems, virtual learning environments and more!

## Scannx, Inc.

### SCANNX BOOK SCANCENTER

Scannx is the leading developer of book-edge scanning solutions for library patrons and staff. Its innovative software incorporates ease-of-use, reliability, security, accessibility, device monitoring and measurement, and IT productivity tools. With only 3% of the 135 million pages scanned going to print, libraries are saving paper and toner costs while saving trees.

The scanner's patented book-edge design protects the book spine from damage. Its intuitive interface guides users through the scanning process including choosing file format, image quality, file name and scan-to destinations. The system automatically crops, straightens and orients pages with text. Its "Accessibility" features guide visually impaired users through the scanning process. Scannx systems connect to various coin, bill and credit card payment systems for cost recovery.

Scan books into PDF, searchable PDF, Word and MP3 file formats. Email scanned files automatically or send them to USB drive, Google Drive, smartphones, tablets, network folders, printers, and fax. Scannx offers OCLC certified software connectors to Tipasa, WorldShare ILL, Article Exchange and ILLiad.

Scannx offers its cloud services on Microsoft Azure, thus ensuring the highest

levels of security and reliability to track usage, push updates, enable features and manage warranty renewals.

## The Library Corporation

### LS2 KIDS

The Library Corporation's tradition of providing an industry leading children's catalog continues with LS2 Kids, featuring trend-setting Series and Categories landing pages for easy exploration of popular titles and subjects. The multilingual, app-style interface is designed with large, colorful, fun, and familiar images and book jackets to draw the attention of children of all ages. Scout, a friendly and playful avatar, helps kids log on, place holds, download eBooks, and more, with age-appropriate, personalized messages bound to bring a smile to every child. LS2 Kids sets itself apart by delivering expertly hand-curated content to ensure

kids find exactly what they are looking for. When a child clicks a series, results display in volume order and categories deliver only relevant titles. TLC provides updated curation, as well as a bimonthly publication, Scout's Corner, where Scout talks about his favorite series and upcoming releases. All content featured in Scout's Corner is also curated in LS2 Kids so TLC customers can use it to promote LS2 Kids in their community or school.

LS2 Kids includes integration with Axis 360, OverDrive, and MackinVIA for native eResource downloads, as well as Accelerated Reader, Lexile, and Google authentication. LS2 Kids is part of TLC's Library•Solution ILS used by thousands of libraries worldwide.

## The Library Corporation

### SELF CHECK•CONNECT

TLC is known for forward thinking solutions that help lead libraries into the future, and the trail blazing Self Check•Connect is no exception. Self Check•Connect is the first self check system designed specifically for libraries' younger users. Integrated into the web-based CARL•Connect integrated library system, these young users enjoy an entertaining, independent interface for checking out library materials. Built in partnership with CARL customers with a strong focus on the user experience make this product one of a kind. Animated queues provide consistent visual and audio feedback

throughout the check out process, and easy to follow error messages allow children to stay focused on their task. Giving children this sense of self-sufficiency creates a life-long love of libraries, and is sure to inspire delight. Self Check•Connect also brings a wealth of functionality to library staff, all within the CARL•Connect automation system. Staff will appreciate the simple, secure login interface and the ease of set up. Options to override check out limits and the ability to easily move to a check in mode will streamline daily workflows. There is even the option to declare material as 'just returned' to further expedite the check out process. Self Check•Connect was built to empower the younger users in our communities and give library staff the confidence and freedom to provide library services to multiple children at once in a thoughtfully and playfully designed product.

## Today's Business Solutions, Inc.

### TBS-KIOSK

The TBS-9900 Payment Kiosk series features a reduced footprint. This print release system does not require a computer for print release or large cabinets, maximizing valuable floor space. The kiosks consist of coin, bill & credit card payment options along with a CPad device that controls access & enforces payment for copy, print, scan, and fax all from a single vending device. The kiosk is sturdy & wears well in a public use environment with clean cable management. Giving patrons one user interface to conduct their transaction, simplifying the entire process.

These units feature a secure PCI compliant credit card terminal. Credit card transactions are processed on a secure cellular network at a low micro transaction rate per swipe with no minimum fees. Each terminal supports EMV Chip, Swipe, NFC (Apple Pay, Android Pay & More).

Optional upgrades include a high capacity coin tubes & bill recycler that gives back change in coin & bill, enabling users to utilize larger bill denominations without depleting the tower. This system automatically replenishes itself with coin & bills,

elevating staff from having to constantly be filling the coins & bills within the kiosk.

Audit receipts can be printed from the TBS-Kiosk to reconcile funds and to account for all financial activity conducted at each kiosk, as well as providing centralized reporting for verification of activity.

## Transparent Language, Inc.

### TRANSPARENT LANGUAGE ONLINE

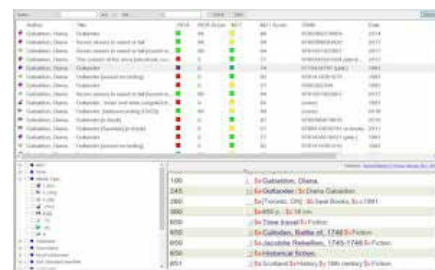

Transparent Language Online includes 112 foreign languages, plus English for speakers of 28 other languages. In addition, Transparent Language Online includes Intermediate English for Everyone, as well as 83 non-English paired languages. In total, Transparent Language Online includes courses and lessons in the 224 language pairs (252 including the transliterated forms). The courses and lessons in the program help learners develop listening, speaking, reading, and writing skills through a variety of different activities.

Transparent Language Online is the only major language-learning system that includes alphabet courses that support the learning of non-Latin alphabets. These courses strengthen a learner's knowledge of the foreign alphabet by walking them through a series of lessons and activities that instruct the name of each letter, common sounds, various forms or uses of each letter, and typing of the letters on a standard keyboard for the language. These alphabet courses are available in over 35 languages and growing, including Arabic, Dari, Farsi, Hebrew, Hindi, Japanese, Korean, Russian, Tagalog, Thai, Urdu, and Wolof.

As a fully mobile-responsive program, Transparent Language Online is accessible on tablets, phones, and computers and is appropriate for academic, business, or travel purposes and for use by learners of in grade 3 through adult. A children's language-learning program, KidSpeak, is also included for grades K-2.

## WebClarity Software

### BOOKWHERE SUITE

BookWhere Suite is built on core library values: enabling access to information & facilitating resource sharing between libraries. Unlike other copy cataloging services that charge for membership, download and/or upload of records, BookWhere has one cost for the technology, helping catalogers locate and edit bibliographic data dynamically (not from a static union database). It operates cooperatively with most major library automation systems allowing users to easily transfer retrieved records to their database.

- Libraries rely on BookWhere Suite to:
- Provide dynamic real-time access to the largest shared registry of databases in the world and the only true cooperative cataloging community.
- Evaluate completeness and pinpoint best record matches with our MARC 21 and RDA rating and scoring feature.
- Batch search by ISBN, ISSN or other fields to maximize time.
- Edit records individually or in batch, manually or using pre-recorded macros before uploading to your library system to ensure high quality and integrity.
- Upload and batch edit a file sent to you from publishers/e-suppliers.
- Achieve high hit rate: over 2600 different databases auto-updated weekly.
- No per record cost for exporting – download 10 or 10,000 – the cost is the same: free.
- Toll-free phone and email support are available to answer your questions

### WEPLAY ROCKING BOWL

The Weplay Rocking Bowl is more than just a Bowl. Children enjoy using their imagination while relaxing and reading. Some children like to move and shift while reading, it helps them to focus and read longer. The Rocking Bowl can be a boat, a car, a house, a turtle shell, or anything you can imagine. The Weplay Rocking Bowl was designed to be safe and comfortable. The smooth curve design of the bottom makes the rocking smooth and controllable. The ripples inside the bowl not only make the bowl beautiful but serve as an anti-slip base when entering the bowl. The Rocking Bowl is the perfect size for two kids to play in together. The wavy edge provides children with air circulation when the bowl is upside down. Use the Bowl right side up or upside down. The Bowl is great for stretching exercises, also. For all ages the Rocking Bowl is a great addition to any environment.

### REMOTELOCKER

remoteLocker is a flexible and intuitive holds pick-up and return system that can

be placed anywhere in your local community, allowing your library to promote and extend its service and access beyond your physical building. Requiring only shelter, electricity, and Internet access, remoteLockers can be installed nearly anywhere, including community centers, fire stations, and grocery stores.

The remoteLocker is a modular system that can be customized to fit your individual requirements and space. Additional towers can be added at any time, allowing your solution to grow with the needs of your library.

Our intuitive software offers library users an easy-to-use interface that communicates directly with your ILS, ensuring real-time checkouts and returns. Individual lockers are spacious enough to hold multiple items for pick-up, and an integrated return bin has a large capacity to gather all returned items. The remoteLocker can be configured to accept returned items in either secure or non-secure mode. Items are checked back into the ILS and held in the integrated return bin until staff collects them.

Choose from over 200 color options for your remoteLocker, or create a custom graphic wrap – a popular way to promote your library brand.

### bibliotheca

### SELF-CHECK 1000

The bibliotheca selfCheck 1000 was designed to be the ultimate self-service solution, combining user-friendly features with powerful software capabilities.

It provides users with a sleek, inviting design and is available in freestanding, desktop and height-adjustable options - all with an LED light-based guidance system to help navigate the check out and return process. The kiosk ergonomics incorporate natural placement of features

to provide convenience and ease-of-use. quickConnect software offers a flexible backend, as well as a beautiful, intuitive user interface. Libraries can mix and match options, including events promotions and digital lending, to maximize the self-checkout experience.

Increase fee collection with optional built-in, comprehensive payment collection systems. Our software helps users easily navigate the process and accepts all types of payment methods including contactless, chip and pin (EMV) credit and debit cards as well as coin and bill. The selfCheck 1000 is fully customizable, allowing libraries to select the features that fit their needs and provide the best possible experience for their users. Optional extras include integrated return bins, a media case unlocker, and an additional surface area to hold library items. Available in a variety of colors, the selfCheck 1000 also offers the ability to apply custom graphic wraps.

### Convergent Library Technologies

### NOVELBRANCH

NovelBranch is a mini-Library giving users access to a unique subset of your library's collection, all with the ease and accessibility of getting snacks from a vending machine. Users check-in and check-out items all at the same time with the simple presentation of their library card which once authenticated opens the door. NovelBranch communicates with the library's ILS in real-time through SIP2, ensuring that circulation status information is updated instantly.

NovelBranch is an excellent way to meet the needs of underserved areas of your population. Placing NovelBranch in places such as community centers, health care facilities, or transportation hubs like airports give patrons extended hours

to pick up their material, without being restricted to the library's hours or being limited by geography. In growing communities, NovelBranch can be the vanguard for future library services, building demand and promoting your organization in development of new facilities.

NovelBranch in academic libraries provides a secure method for circulating Course Reserves, transforming what was previously a closed service into a self-service one. Material becomes quickly available for the next student wanting to borrow it, making material turnaround fast and efficient. NovelBranch can also be your satellite library on remote campuses ensuring curriculum resources are available where needed.

## The Crowley Company

### CROWLEY ODS OVERHEAD DOCUMENT SCANNER

Crowley's self-manufactured overhead document and book scanner (the ODS) has been designed as an affordable patron/walk-up scanner for users of any experience level. The scanner can be delivered as a touchpanel model, mimicking the familiarity of operating a personal tablet, or ready to connect to an existing PC.

The ODS scanner has proven to be ideal for public use, particularly in libraries, where the user-friendly software eliminates the need for staff intervention. Low maintenance and reducing the costs of consumables such as paper and toner, the ODS allows patrons to make digital

copies from a wide variety of materials without damaging book spines or pages and without having to remove staples or paper clips.

The ODS scans loose documents, bound books, spiral notebooks, lab books, binders, photographs and other flat or bound media with an 18MP camera sensor high definition calibrated sensor. The modern design and 8mm wide-angle lens and LED light system ensures fast scan times at up to 2400 dpi in color, grayscale or black and white.

The ODS book copier is lightweight and easily portable, offering libraries flexibility as their library spaces evolve. Key features include:

- Ability to scan A3+ (20.4" x 16.5") sized documents
- Plug-and-scan connectivity
- Low maintenance requirements
- Voice recognition
- Multiple USB ports
- Image output to USB, email, cloud, network, printer and more

## Milder Library Furniture

### MILDER MAKER SERIES / BUTCHER BLOCK TABLE

Milder office designs and builds contemporary furniture for libraries and learning environments.

Libraries are an ideal setting for MakerSpaces. STEM and Maker-focused and innovation programs inspire and empower kids and adults alike to make, create and learn new skills. Re-designed for a shop and maker environment, the Milder Maker Series offers a robust reboot of the Milder Furniture System. Our Butcher

Block Table is built to last and boasts a 1.5D thick maple butcher block top that can take all the abuse as well as the love, from clamps, to fabric patterns and laptops. Tables can be easily moved or ganged to support a variety of studio and classroom activities. The Maker Series includes a mobile storage partition, tool carts, and the butcher block tables.

Milder Furniture is designed in Philadelphia and produced in Pennsylvania and New York states (not Asia or Eastern Europe).

We develop smart, responsible environments for our customers by providing efficient design and planning, a focus on ergonomics, and use of environmentally friendly materials (i.e. no off-gassing). We are open for customer input (you know what you need best!) and support a highly collaborative process.

We routinely offer the following services - free of charge:

- Programming and space planning
- Development of pieces that match particular space and budget requirements
- Full furniture presentation package complete with detailed drawings, renderings and itemized budgets.

## Rittenhouse Book Distributors

### R2 DIGITAL LIBRARY

The R2 Digital Library is a market-leading eBook database for health sciences featuring a comprehensive collection of medical, nursing and allied health titles presented in a clean and intuitive interface.

The platform offers thousands of

**ODS Overhead Document Scanner**

**Award-Winning Patron & Back Office Digitization Solutions**

health science eBooks from the leading publishers and professional associations. These high yield, current eBooks provide the specialized content demanded by health science faculty and students. In addition to traditional publisher content, the R2 Digital Library also offers Open Educational Resources (OER).

eBooks in the R2 Digital Library database are purchased individually, enabling librarians to build collections based on their users' needs. Upon purchase, eBooks are immediately accessible with perpetual access. The platform also offers a unique Patron Driven Acquisition (PDA) model – with no automatic or required purchase – enabling users to inform collection development decisions.

A web-based database, the R2 Digital Library offers seamless access on desktop computers, laptops, tablets, smartphones and web-capable eReaders. The extensive image library, deep linking, and indexed search functionality provide an enhanced experience for the user. The R2 Digital Library's user interface is optimized for the health sciences, and R2 Library eBooks are easily integrated into any collection.

## SAGE Publishing

### SAGE VIDEO

SAGE Video streaming collections are developed in partnership with leading academics, societies and practitioners to deliver cutting-edge teaching and research-oriented video within the social sciences.

With 60%+ exclusive content, SAGE Video provides unparalleled publishing expertise, disciplinary knowledge and exposure to leading experts in the field, upholding the academic standard for which SAGE is known. The collections contain more than 1,000 hours of created content for use across higher education in order to support undergraduate teaching and learning and higher level academic research.

SAGE Video supports students of all levels through a breadth of video types that

can be used within class, as class preparation, for further reading, or in online learning settings. Video types include case studies, tutorials, interviews, documentaries, in-practice, quick reference definitions and more. Videos feature desirable functionality, such as sharing via e-mail or social media, searchable and downloadable transcriptions and closed captioning.

In today's highly technological learning environments, SAGE Video provides remedial or supplementary curriculum content in the way students are adapting to receive such information, serving as critical support for instruction.

## Taylor & Francis Group

### ROUTLEDGE HANDBOOKS ONLINE

Routledge Handbooks Online is an invaluable educational resource bringing together the world's leading scholars to provide a cutting-edge overview of classic and current research from Routledge, and CRC Press, in the Humanities, Social sciences, Education, Psychology, Engineering, and Built environment, while at the same time providing an authoritative guide to theory and method, the key sub-disciplines, and the primary debates of today. Every title within Routledge Handbooks Online is surrounded with meaningful metadata and abstracts at a chapter level, making it fully searchable and browsable, providing a functionality of greater value to the student and researcher. Additionally, the third chapter of each handbook is available as a free download, so you can view sample content.

Key Features:

- All titles are DRM-free
- All content is available in HTML and PDF format
- Providing over 46,000 chapters from

1,500 handbooks

- Expansive coverage of 44 subject areas
- All chapters have an abstract and rich metadata that make searching and research more efficient and effective
- Intuitive search tools enable users to find exactly the material they need across the Handbooks' multiple subject areas, with peer-reviewed content that ensures quality of research
- Full text DOIs, OpenURL, and Usage Statistics to aid discoverability and ensure library patrons are accessing

## WebClarity Software

### PEOPLEWHERE

PeopleWhere is a web-based software that simplifies the creation, publishing and ongoing upkeep of staff schedules. With real-time online access, you will communicate more effectively with staff, as well as reduce redundancy, mistakes and inefficiencies that are inherent in the manual managing of multiple schedules. And by consolidating scheduling, availability and leave data in one place, you will achieve real productivity improvements in several departments and across multiple personnel so you can further your transformational activities.

Libraries rely on PeopleWhere to:

- See at a glance current and future scheduling conflicts and receive guidance to address them immediately.
- Record unique staff skills, such as languages, certifications, and knowledge (i.e. local history), to reflect all qualified staff to do a job, making it easier to share staff between departments/branches.
- Review and approve absence requests, monitor and manage staff time banks.
- Track staff's professional development accomplishments.

## ABC-CLIO

### ABC-CLIO SOLUTIONS ACADEMIC DATABASES

The ABC-CLIO Solutions databases provide up-to-date, effective undergraduate reference and research across the humanities for two and four-year colleges. All 14 discipline-specific databases empower students to broaden their understandings, analyze historical and societal complexities, and develop innovative and informed perspectives with vetted, credible content.

- Original journal articles, by leading academics offer varied viewpoints on the complexities and nuances inherent in the discipline to serve as both sources and exemplars of evidence-based scholarly thought
- A robust reference library draws from 200,000+ primary and secondary sources, including media and data
- A course companion, comprised of both text and video lectures, designed to reinforce coursework or drive independent study
- Easy to navigate with a federated search engine that pulls content across multiple databases to connect with any and all applicable material
- Built-in research tools streamline the research process across the entire suite, including proper source documentation which instantly generates citations in the 3 most popular styles.
- Translation into 11 languages with text-to-speech offering the option to

learn by listening

- Custom subscriptions offer a flexible approach for academic institutions to purchase access to the entire 14-database suite or any number and combination of databases

## Comprise Technologies

### SMARTALEC

SmartALEC is the only true solution made for mobile printing at a library! SmartALEC uses patron library cards (friendly!), features web document upload (convenient!), automatically knows the branch a user is in (easy!) and includes Apps for wireless devices including iPhones (cool!).

SmartALEC connects users with the library because patrons upload documents by visiting the library's website...login with library or visitor card and upload their documents. No need to identify location or printer... just go to the library and print at Release Station!

SmartALEC supports users from Smartphones, tablets, and laptops as well... no need to email print docs to oneself! All a library needs to get started is SmartALEC and a Print Release Station! Since SmartALEC is hosted by Comprise there is no need to worry about capacity since all documents from patron devices are uploaded by patrons from anywhere! Documents can be available for print for as long as 30 days depending upon the service level selected by the library.

[\[CLICK HERE FOR MORE\]](#)

## Comprise Technologies

### SMART KIOSK

Comprise Technologies' Smart Kiosks, or convenience centers, enable self-service payments. Smart Kiosks expand self-service beyond ILS & Print charges. Smart Kiosk can be used for many things within the library. Patrons can manage their accounts, purchase mer-

chandise, sign up for a PC, pay for copies/fax/scan/print, pay fines & fees and make donations. Every payment made without staff involvement yields a true cost savings! Self-Service Smart Kiosks are an easy and convenient way to accept and manage payments for services and goods offered in the library; they comply with the PCI Data Security Standard!

Libraries can configure Convenience Centers to offer patrons the greatest ease to conduct business. The Smart Kiosk offers real-time transaction reports. These reports display revenue by payment type (cash, credit, account), revenue by location, and much more. These reports and inquiries are available to properly credentialed library staff online as well, so they can be viewed from anywhere. Like all payment products from Comprise, Smart Kiosks are designed to allow libraries to validate PCI compliance at the lowest possible level; SAQ C. Smart Kiosks integrate fully with Smart Terminal credit card readers so libraries can offer patrons payment card service without adding an untenable burden to compliance efforts.

## ROUTLEDGE ENCYCLOPEDIA OF MODERNISM

Featuring interdisciplinary and global content about the Modernist period,

Routledge Encyclopedia of Modernism is the largest and most comprehensive resource available for all those involved in the study of Modernism. Content features overviews, images, and fully cross-referenced articles, allowing for greater discoverability between fields and further exploration of the interconnectivity of modernism on a global scale. It is the ideal starting point for any and all research into the Modernist era.

With over 1600 articles written by experts in the field, supported by over 100 images, and biannual updates this resource provides a comprehensive and interdisciplinary view of Modernism. Articles are written with students and researchers in mind, with an overview essay providing an introduction to each subject. 25 overview essays provide introductions to the most studied areas of modernism.

Some key topics including: Abstract Expressionism, Cubism, Dance, Intellectual Currents, and Modernism in the Middle East and the Arab World.

Key Features:

- Every article is cross referenced and

hyperlinked making further research as simple as possible

- Article summaries found at the beginning of entry are available without restriction
- Articles can be cited at the click of a button available on every entry
- Once logged in articles can be saved to your personal profile allowing you to find your favorite articles with ease
- 25 overview essays provide introductions to the most studied areas of modernism
