The 2021 Modern Library Awards (MLAs) is proud to announce its review scores from participating companies in this special supplement to Library Product News. The MLAs are an unbiased program recognizing the elite products and services that serve the library industry. Companies provided concise write-ups of their products/services and submitted them for review. Each judge had to have had experience with the product or service, and each participating company also had to provide four references of library placements to submit their forms. The LibraryWorks staff had no influence on the scoring. Awards were based on the following scores:

- Highest Overall Scores – Product of the Year and Service of the Year
- 8.5-10.0 Platinum
- 7.5-8.4 Gold
- 6.5-7.4 Silver

The 2021 roster of products awards includes:

**Product of the Year:**
*Comprise Technologies | Smart Access Manager (SAM)*

**Service of the Year:**
*TLC – The Library Corporation | TLC-Cloud Services*

**Platinum Awards:**
- *Comprise Technologies | Smart Access Manager (SAM)*
- *TLC – The Library Corporation | TLC-Cloud Services*

**Gold Awards:**
- *AWE Learning | AfterSchool Edge Platinum*
- *Comprise Technologies | Smart Access Manager (SAM)*
- *Generation Fifth Applications | Library Archival Software (LAS)*
- *Innovative Interfaces, Inc. | Innovative Resource Sharing (INN-Reach)*
- *Smartbook Media Inc. | LibraryCalendar*
- *Mackin | MackinVIA*
- *Visible, Inc. | VisibleCloud*
- *Brainfuse | HelpNow*

**Silver Awards:**
- *AWE Learning | AfterSchool Edge Platinum*
- *Comprise Technologies | Smart Access Manager (SAM)*
- *Generation Fifth Applications | Library Archival Software (LAS)*
- *Innovative Interfaces, Inc. | Innovative Resource Sharing (INN-Reach)*
- *Smartbook Media Inc. | LibraryCalendar*
- *Mackin | MackinVIA*
- *Visible, Inc. | VisibleCloud*
- *Brainfuse | HelpNow*

**Honorable Mentions**
- *Comprise Technologies | SmartALEC*
- *Multiyear honorees*
Comprise Technologies
SMART ACCESS MANAGER (SAM)

Smart Access Manager (SAM) has been a cornerstone solution for libraries managing public-use computers for 25 years. SAM’s complete, fully integrated, comprehensive functionality offers the necessary tools to empower patrons and liberate librarians from babysitting public PCs. SAM offers efficient ways to enable PC web reservation and easy print release /cost recovery. SAM’s web-based architecture allows the simplicity of a single, centralized database and configuration engine while providing the flexibility required in a spectrum of library settings.

SAM converts all print jobs to PDF format, eliminating dependence on local print drivers and enables patrons to preview before printing. SAM also supports multiple payment options. The account-based system utilizes patrons’ existing library card numbers rather than requiring the purchase of stored value cards and allows for payment of fees, fines, print or other transactions directly from the patron’s SAM account without staff intervention.

Dear Reader,
I hope you enjoy the 2021 Modern Library Awards special edition and that you take advantage of the outstanding products and services offered by these respected companies. Our entire team would like to thank all judges and applicants who made the 2021 program such a success. Your enthusiasm and encouragement kept us going through another very busy award season and we were overwhelmed by the positive response.

Congratulations to the following judges who were randomly drawn to win a $25 Amazon gift card: Ryan W., Katie W., Megan K., Anne B., Megan M., Rachel M., Elizabeth T., Rochelle H., Andrew M., Wenona P., Donald B., and Chuck H.

If you are a librarian and are interested in acting as a judge for the 2022 Modern Library Awards, please email the following information to jenny@libraryworks.com: name, title, email address, and library name. If you have a product or service that you would like to enter in the 2022 Modern Library Awards, please email the following information to sharon@libraryworks.com: name, title, email address, company name, and product/service name(s).

Products that were entered in the 2021 Modern Library Awards are eligible to be entered into the 2022 program.

If you have any questions regarding the MLAs or thoughts to improve, I’d love to hear from you! Please feel free to contact me.

Best regards,

Jenny Newman
Vice President / Publisher
LibraryWorks, Inc.

“Not just one... but, all five.”

“Not just one... but, all five.”

Again.

TLC – The Library Corporation

TLC-Cloud Services

The Library Corporation (TLC) has teamed up with Oracle to redefine the library industry’s experience with data hosting services. TLC-Cloud Services is an improved hosting platform — powered by the highly trusted Oracle Cloud Infrastructure (OCI) and managed by the data and library experts at TLC.

OCI is a deep and broad platform of cloud services, providing TLC customers with unmatched control, security, and predictably high-performance cloud-based infrastructure services.

TLC customers with TLC-Cloud Services have the newest hardware with annual next-generation upgrades, giving library customers the fastest performance. With TLC managing the firewall and day-to-day server responsibilities, as well as secure daily backups, this eliminates the constant server repairs, upgrades, purchases, and minimizes threats to cybersecurity.

With a target service uptime of 99.95%, TLC-Cloud Services provide the utmost reliability in the industry, benefitting from the high availability and redundancy capabilities of the Oracle Cloud Platform, Oracle Database Backup Service, and OCI Object Storage Classic.

TLC-Cloud Services also provide integrated security services to protect data and control access using security-first design principles. The combination of architecture, technology, and process provides a more secure environment than most on-premises facilities, as well as other public clouds.

BILINGUAL SPANISH LITERACY STATION PLATINUM

The Bilingual Spanish Literacy Station Platinum (BLS Platinum), for ages 2-8, is a fun and engaging digital learning resource for young patrons. BLS Platinum has brand new avatars, animated interfaces (beach, fairytale, and arctic themes), and a brand new content suite of 75+ STREAM-aligned award-winning educational software titles, including both English and Spanish content.

As a plug-and-play workstation, BLS Platinum does not require an internet connection, creating a safe and locked down environment for students in the library.

With the click of a button the content displayed on the interface appears in English or in Spanish, providing content for both those fluent in the English language, as well as English Language Learners (ELLs). There are also titles for native English language speakers to be introduced to and learn basic Spanish vocabulary, including, but not limited to, colors, numbers, animals, and feelings.

Content spans all curricular areas. Children can learn about cyber safety with Garfield, read or listen to a variety of e-books (fiction and non-fiction) in Spanish and English, practice handwriting and coding skills, and more!

BLS Platinum comes with access to the Customer Portal to track patron usage. Add more content to the BLS Platinum by New! AWE Learning announces Platinum Online!

You’ve seen our workstations in the library; now our first cloud-based product is here!

Platinum Online brings 175+ fun and engaging educational titles, from a myriad of popular publishers, with the ease of a single login. For ages 2-12. Available on any internet enabled device STREAM-aligned & SEL Content. Accessible in the library or at home.

7-Day FREE Trial!

Special Supplement to LIBRARY PRODUCTS & SERVICES NEWS™ ©2021

CloudLibrary Checkout App

CloudLibrary checkout brings the self-checkout experience directly to users’ pockets, allowing them to borrow library items right from their smartphones. Users simply scan the item’s barcode or RFID tag. Follow the checkout instructions in the app, and pass the Fastlane checkout station (if applicable) to deactivate items before leaving the library. Mobile checkout is perfect for library users who want to quickly borrow a small number of items while avoiding personal contact or shared self-checkout devices.

CloudLibrary checkout is much more than a simple scanner. The app includes interactive digital receipts that let readers favorite, review, and sort and filter items. Optional notifications and library reminders mean no more missed due dates. When paired with the cloudlibrary assist module, the app makes organizing library visits quick and easy with a bookbag checklist to help gather returns and the capability to store the whole family’s library cards in one account—never leave a book or a card home again. The feature-rich app includes the ability to publicize library events, recommend titles, and communicate important library messages, fully integrating the physical and digital library experience.

SelfCheck™ 1000

Post-COVID, 81% of consumers prefer self-service, and self-checkout is the safest way to borrow materials. The bibliotheca selfCheck 1000, powered by quickConnect software, provides the safest, the most ergonomic, top-of-the-line self-checkout experience. The sleek, large portrait screen is visually stunning and provides maximum real estate to promote library programs, services, and promotional reads during checkout. LED lighting guides users through the transaction step-by-step while on-screen animated instructions increase first-time user success rates. selfCheck 1000 can be configured to allow payment of all kinds, eliminating lines (and embarrassment) at the circulation desk as well as the need to have external hardware on the library floor. Kiosks are height adjustable to provide maximum access.

Custom color warnings alert staff to routine maintenance issues such as low receipt paper and off-line status, allowing them to diagnose problems from across the room and reduce downtime. The selfCheck 1000 is compatible with both RFID and barcode technology and is available in desktop or as a free-standing kiosk. The solution is highly customizable, and optional items include return bins that fit perfectly beneath the shelf, larger glass shades to protect tablets and tablets, and dual-plexing. Numerous colors are available, as well as custom graphic wraps that provide a branded library experience.

Field-Tested Tutoring: Brainfuse is available in hundreds of library systems in the US, including Suffolk County, San Francisco, Sacramento, Los Angeles County, and Chicago (America’s largest online homework help program). High-Quality Tutors: All Brainfuse tutors have 4-year college degrees and undergo a rigorous selection and training process. State-Aligned Services: All online tutoring, skills lessons, and practice tests are aligned to State and Common Core Standards.

We are one of the most experienced tutoring companies in North America, having completed over 12 million one-on-one tutoring sessions. Brainfuse provides services to virtually every state and territory through a mix of academic, online, and library services.
Resumen
to online tutoring sessions since 1999. We remain committed to providing high-quality academic support and continually meet student needs through innovative features and services, particularly during the current COVID-19 crisis.

Comprise Technologies

SMARTPAY

Allow your patrons to make payments and donations to your library in a safer and more simplified way. Introduce them to the Comprise SMARTPAY on-line payment solution. SMARTPAY serves as an on-line Payment Gateway for libraries and can be a library’s best friend in this challenging COVID environment! It links with all leading ILS products to automatically post payments to the ILS, and lets you reconcile payments by an individual member library. SMARTPAY helps boost revenue collections because it is secure, easy, convenient, and adds a remote payment option that is available 24 hours a day, 7 days a week. The solution also allows for the customization of pickup policies to ensure smooth processes for staff and patrons.

With enhanced mobile accessibility, SMARTPAY allows patrons to self-checkout materials from home, encouraging social distancing and reducing the need for expensive self-checkout kiosks. Patrons can also schedule in-library services, such as computer lab space, passport photos, library ID renewals and orders, and keep tabs on library announcements, hours, news, and events making SMARTPAY truly a one-stop-shop for libraries to be 100% functional during these challenging times.

Today, over 100,000 reservations have been placed through myLIBRO!

MYLIBRO

As libraries respond to new regulations impacted by COVID-19, myLIBRO has helped customers across the county seamlessly open back up to the public with a solution that ensures their community is served while keeping the safety of staff and patrons a priority. myLIBRO is an all-in-one app that seamlessly integrates with libraries’ ILS systems, enabling patrons to search their local library by author, title, subject or keywords, reserve materials, and schedule orders for contactless pickup through voice and chat straight from their mobile devices. Through the myLIBRO library admin portal, staff can easily maintain curbside call-in orders, saving staff thousands of hours of repetitive work. The solution also allows for the customization of pickup policies to ensure smooth processes for staff and patrons.

With enhanced mobile accessibility, myLIBRO allows patrons to self-checkout materials from home, encouraging social distancing and reducing the need for expensive self-checkout kiosks. Patrons can also schedule in-library services, such as computer lab space, passport photos, library ID renewals and orders, and keep tabs on library announcements, hours, news, and events making myLIBRO truly a one-stop-shop for libraries to be 100% functional during these challenging times.

The Crowley Company

CROWLEY DIGITIZATION SERVICES

As repositories for historical and collected works and records, libraries comprise a significant percentage of Crowley’s Digitization Services activity. For four decades, Crowley has served the imaging needs of librarians, archivists, historians and records managers by digitizing cultural heritage documents, newspapers, maps, books, microfilm, photographs, slides and other still media. With a history steeped in micrographics, Crowley offers a complete understanding of the analog-to-digital cycle. Specializing in high-volume conversions as well as the rare and valuable, Crowley has unique access to the best industry capture solutions as a seller of Zeutschel and InoTec brands and as the manufacturer of Mekel technology and Wicks and Wilson scanners. Production efficiency, an in-depth understanding of image quality (including how to achieve FADGI ratings), forty years in the industry and low operator turnover are just a few of the advantages clients gain when partnering with Crowley Imaging.

Depending on collection requirements, Crowley provides the option to scan on-site or in-house while always working to ensure that the final images meet the project requirements and can be made accessible as the library sees fit.

Specific digitization services for libraries include:
• Paper scanning
• Book bound scanning
The Crowley Company

MEKEL TECHNOLOGY MACH-SERIES MICROFILM SCANNERS

Manufactured by The Crowley Company, the Mekel Technology MACH-series scanners – engineered for the large-scale digitization of microfilm and microfiche – were the first on the market in 1987. Today, the MACH-series remains at the forefront of scanning technology and is a staple for those with large microfilm collections. Designed for diverse 16/35mm microfilm types, the MACH-series provides superior image quality (FADGI-rated) at high scan speeds for maximum efficiency. Utilizing Crowley’s custom Quantum software suite, the Mekels deliver quality digital images from even the worst sets of microfilm (poor originals, improperly stored rolls, decaying film). Win 10 support, easy operation, job memory, template creation, image editing and OCR capabilities are a short list of the features that set Mekel scanners apart from the competition. The MACH10 is known for its combination of image quality and speed, capturing a 100 roll in 2.5 minutes at up to 600 dpi true optical resolution. The MACH12, used in libraries and archives to fulfill NEH grants and to meet NDNP requirements, scans up to 750 dpi true optical resolution. The MACH5 and the Mini models round out the microfilm scanner series, offering a variety of space- and budget-saving options while continuing to provide the same efficient quality capture. Proving their reputation for minimal maintenance, prior MACH-generations continue to provide high-volume digitization services at libraries throughout the world without issue.

HEAR FROM THE JUDGES:

“Honestly, I tried to think of things that I don’t like about our Mekel scanners, or which could be improved, but I really couldn’t think of anything. They are working extremely well for us as part of our production digitization workflow.”

The Crowley Company

ZEUTSCHEL OS Q ARCHIVAL OVERHEAD SCANNERS

For decades, Zeutschel GmbH has been the premier brand in archive-quality overhead scanners. Zeutschel’s newest generation scanner is the OS Q series. The OS Q enhances the reputable scanning power of its acclaimed predecessor, the OS 14000, with faster scan speeds and new camera technology. Available in A0–A1– and A2-sized models, the OS Q is engineered for image quality and operator comfort and is quickly being incorporated into the digitization efforts of libraries and archives around the world. With true RGB capture on each pixel (no color interpolation), the OS Q is capable of capturing FADGI 4-star, full Metamorfoze and ISO 19624-1 images, ensuring that digitized images meet the highest of archival standards. Bi-directional scanning offers unprecedented efficiency and interchangeable book cradle and table options allow librarians and archivists to customize the scanner for operator comfort and for the media types being digitized. The OS Q pairs software and hardware flexibility with state-of-the-art technology for the detailed capture of books, documents, photographs, maps, drawings, fragile materials and other flat and bound media.

HEAR FROM THE JUDGES:

“The device was a natural upgrade from our other Zeutschel scanners and was therefore easy for our scan technician to learn. We appreciate the high quality image output and the device flexibility of the ScanStudio. The Crowley Company has been extremely supportive; they’re well-versed in the scanner and in working with customers to optimize device output. With process control, calibration, changes to configuration settings and target reference file tweaks, we can readily obtain 3- and 4-star FADGI quality.”

[Click here for more]

The Crowley Company

ZEUTSCHEL SCANSTUDIO

It’s an understatement to say that library archives are diverse. From paper to books to microfilm to glass plates to art to pottery to fashion and so much more, librarians and archivists are the guardians of our physical cultural heritage. Zeutschel GmbH has recently introduced the ScanStudio for those institutions with a variety of archive types. With a modular shape that mimics a photographic studio and available with 100MP or 150MP camera options, the ScanStudio digitizes both transmissive and reflective still media as well as flat 3-D objects (i.e. coins, medallions, etc.). Touted as a “Graphic Arts Scanner and Photo Studio in One Universal Digitization System,” ScanStudio advantages include:

• A modular, universal system for all digitization tasks.
• Interchangeable digital backscans and lenses.
• Copyboard systems for a wide range of documents.
• The shortest scan cycles in the industry.
• Reliable results through pre-defined workflows.
• Automatic functions: autofocus, automatic exposure control; color profiles, and automatic scanning.
• ErgoLED LED-lighting system for shadow- and reflection-free results.
• Software for book curve correction and image optimization.

Flipster is a digital magazine platform that allows people to browse the latest issues of popular magazines, from any device. This comprehensive, e-learning platform features seven targeted learning centers, containing practice tests, self-directed tutorials, e-books, articles and flashcards. These tools are designed to help students improve core academic skills (English, math, science and social studies), score higher on ACT®, SAT® and AP® exams; acquire basic computer skills; search for colleges and scholarships; explore careers; and prepare for the ASVAB (military) and occupational certification exams. PrepSTEP for High Schools also includes tutorials to help students develop organizational strategies, information literacy, and other important study skills. In addition, educators can use these learning resources to support instruction in a wide range of subject areas. PrepSTEP for High Schools comes in Common Core, Non-Common Core and Canadian versions and is compatible with Blackboard, Canvas and Brightspace learning management systems.  

Huston & Company  

CUSTOM FURNITURE FOR LIBRARY ENVIRONMENTS  

Huston & Company designs and builds custom, handmade hardwood furniture for library environments. We focus on the design process, wood selection, craftsmanship & finish, incorporating details not found in mass-produced furniture. Our custom furniture capabilities allow us to work closely with schools and institutions on adapting furniture designs to meet new standards of physical distancing in the wake of the COVID-19 pandemic.  

• Design services include drawings, estimates, and finished samples, all of which are complimentary for our clients. We can also provide models, prototypes and 3-D imaging.  

• We use premium hardwoods and other materials like specialty veneers, stone, glass, metal & laminates.  

• We work with architects, designers, and project teams to create custom furniture that meets the functional & aesthetic needs of each project.  

• Our furniture is designed & finished to withstand hard, regular use in libraries. Each piece of Huston furniture will last for generations.  

• Given the quality & longevity of our furniture, our pricing is very competitive long-term. Our furniture lasts for generations; you’ll replace less over time, reducing future spending.  

• Our projects range in scope from individual pieces to complete furnishings for libraries, including conference rooms, admin offices, circulation, study & reading rooms, cafes, and more.

Huston & Company

Our most sincere thanks to the judges for recognizing our work five years in a row!  

We are so proud to be a trusted resource for quality custom library furniture.

Innovative Resource Sharing (INN-REACH)  

Innovative Resource Sharing is a cost-effective way to expand your collection, automate manual workflows, and provide an easy-to-use discovery experience for your patrons. By joining a resource sharing network, your users are instantly connected to millions of new titles, without the library investing in new materials. These resources are displayed in a shared discovery interface for an intuitive process that enhances the user experience. Users simply search the catalog, and easily check-out or place holds on materials —without any additional work by library staff. Patrons, students, and faculty receive physical materials in as little as two days, and electronic materials almost immediately. This user-initiated consortial borrowing system makes lending and borrowing materials between libraries as easy as local hold requests. Libraries who join see an increase in their circulation as a result of the expanded collection and easy-to-use shared catalog. Best of all, participating libraries see their shared resource expenses reduced by 70%.

**MOBILE WORKLISTS**

Mobile Worklist is an iOS mobile app that makes materials handling and management tasks more efficient.

- Fully cloud-based
- Provides new functionality for traditional library operations, such as weeding, labelling, ILS delivery tracking, displays, relocation projects, managing new collections, and generating lists of course reserve items.
- Features include: Check In capability from my list
- Send lists to Sierra and update them in E-mail lists to staff or library users, with the option to attach as a CSV file

**MYLIBRARY!**

The MyLibrary! mobile app makes borrowing from the library as easy as texting a friend.
- Now patrons can access library resources, place holds, check out digital items, and visit your library on social media all in one place on their mobile device.
- Available for iOS and Android devices.

**ILS BOOK SANITIZER**

The ILS Book Sanitizer is the first UV-C book and media TABTOP sanitizer.
- The machine kills the COVID-19 virus, pathogenic bacteria, and mold with the use of UV-C bulbs and has been laboratory certified. It stands to be the most cost-effective on the market that has been specifically designed for libraries of all types to include: Schools, Public, Special and Academic.
- The ILS Book Sanitizer is currently the best-priced sanitizer available on the market.
- The compact design and quiet operation makes it most convenient for use by either staff or patrons.
- The machine kills the COVID-19 virus, pathogenic bacteria, and mold with the use of UV-C bulbs and has been laboratory certified. It stands to be the most cost-effective on the market that has been specifically designed for libraries of all types to include: Schools, Public, Special and Academic.

**KAPCO EASY COVER II**

Kapco Easy Cover II protects your books, etc. while in transit. It allows Libraries to place the unit wherever it is most convenient for use by either staff or patrons.
- The rigid cover with flexible spine prevents damage, and is PH neutral with a non-yellowing permanent adhesive. Wipes Clean!

**ILS SCANNER**

The ILS Book Scanner is the first LIBRARY SCANNER.
- The machine kills the COVID-19 virus, pathogenic bacteria, and mold with the use of UV-C bulbs and has been laboratory certified. It stands to be the most cost-effective on the market that has been specifically designed for libraries of all types to include: Schools, Public, Special and Academic.

LIBRARYCALENDAR

LibraryCalendar is a flexible, fully integrated, feature-rich event management and room reservation system developed specifically for libraries. With a broad range of settings and configurations available, LibraryCalendar is designed to meet the needs of libraries of any size.

A calendar should be a useful tool, not a stumbling block, in the process of engaging your community in library programs. Give your patrons an intuitive interface for finding and registering for the events that interest them. Allow community organizations to schedule and request room reservations anytime and anywhere.

Provide your staff with the tools to manage and promote the events they put so much effort into creating. Library Calendar is a flexible, tailored time and room management solution that allows libraries to more fully engage their users.

With features such as Curbside Pickup, Online Programming, ILS integration, eCommerce, equipment reservations, room setups, robust report tools, and customizable event registrations, LibraryCalendar is the most comprehensive library event management and room reservation system available.

Mackin

MackinVIA is a free digital content management system that provides schools, students, teachers, and librarians with easy access to their collection of ebooks, read-alongs, audiobooks, databases, and videos. With one login, users can view and manage all of the school's digital resources on any desktop, laptop, or mobile device, anywhere, any time. Working with more than 18,000 publishers, MackinVIA provides access to nearly 3 million digital resources in a variety of formats. Ebooks are available in a traditional format, and EPUBs. Interactive ebooks integrate video, audio, animation, and activities with the text to enrich the learning experience. Mackin Read-Along™, are enhanced with embedded audio, voice-actors, highlighted words, and synched for auto-page-turning. Narrated digital audiobooks can be streamed for on-demand listening or downloaded for offline. Educational databases are vetted allowing students to safely use without the threat of inappropriate content. Streaming video allows teachers to reach students with varying learning styles. Additionally, educators can import their own digital materials. New to MackinVIA, Deep Discovery Search for users to search the contents of their ebook and database collections and return results instantly. Other tools added include assignments, class sets, reading metrics, and learning management compatibility for teacher's use in the classroom.

Mango Languages

Mango Languages

Guided by its core purpose to enrich lives with language and culture, Mango Languages’ award-winning language-learning system creates engaging learning experiences for libraries, schools, corporations, government agencies, and individuals across the globe, in over 70 world languages and more than 20 ESL/EFL courses. To us, Language is an Adventure. Mango’s self-paced language-learning system was built to get learners speaking. Pronunciation tools, critical-thinking exercises, and cultural context engage learners while complex language acquisition theories and adaptive algorithms are applied behind the scenes.

Rapid skill-building around conversations featuring relevant native-speaker dialogue add additional practicality and pronunciation aid, while retention-building activities like personalized Review cards and Listening & Reading reinforce learned material.

Mango’s unique methodology applies Intuitive Language Construction, which helps users learn the four key conversational skills: vocabulary, pronunciation, grammar, and culture. Each lesson begins with a culturally relevant conversation then breaks it down to help learners build connections through patterns.

Mango provides offline accessibility and mobile features like Bluetooth sync-ing, auto play, and Study Reminders. For libraries: Multilingual customer support team, client specialists, and exclusive promotional materials.

MARCIVE

MARCIVE AUTHORITIES PROCESSING & RDA CONVERSION

MARCIVE’s data remediation service assists libraries in making their collections more discoverable by cleaning up and enriching their catalogs. In a time when it’s difficult for patrons to enter the library building, the accuracy of the online catalog is paramount. Through our sophisticated authority control processes we can:

• Allow users to search effectively, especially important when users are not in the library
• Aid discovery, with cross references and additional keywords
• Present consistent access to names, subjects, genre, uniform titles, and series
• Keep up with continually changing vocabulary and cataloging practice, including update to RDA compliance.

We can further enrich the catalog with the addition of access points such as Tables of Contents, summaries and Fiction/Biography data to aid in readers’ advisory. The enhancement of records with Reading Notes data (Lexile and Accelerated Reader) facilitates bringing just the right reading material to students, parents, and teachers. The integration of linked data offers patrons more resources with their searches.

[MARCIVE]

Niche Academy LLC

Niche Academy helps libraries deliver patron delight in many ways. We create online tutorials to help patrons discover electronic resources and learn how to use them. Our platform allows you to embed tutorials seamlessly into your own website. As electronic resources evolve over time, we keep the tutorials up to date so you don’t have to worry about it. Libraries who implement Niche Academy typically see a significant increase in the overall usage of their electronic resources.

We provide online professional development to help staff become more confident and capable. Efficient and effective staff members are the single most important predictor of patron success and of library support within the community. Our platform is used by hundreds of libraries to assign and track staff training from onboarding through all phases of continuing education.

We help libraries deliver their own local library programs as online tutorial experiences. This has been essential during COVID, but also extends the reach of library programming when in-person offerings again become available. When a library is serious about training, Niche Academy is an essential tool.

HEAR FROM THE JUDGES:

“...In our state, we use Niche Academy to provide training for library staff. Over 1,000 staff enrolled to take courses in only five months. The company provides exceptional support and development, they are proactive, responsive, and forward-thinking. I’ve been working with vendors of products for the library community for two decades; Niche is what we need now, at prices we can afford. Delivering a comprehensive adult micro-learning experience is the new customer service model, and Niche is right there for us.”

OCLC

CAPRIAMOBILE

A custom library app built for the personal experience people expect. CapriAMobile brings the library to life in the hands of users. It is a custom library app that strengthens relationships between the library and people who use its collections and services, whenever they are. Communication options and a personalized interface encourage active and meaningful engagement, helping libraries meet evolving expectations.

• Authentic experience: CapriAMobile creates an authentic digital extension of the familiar library experience from searching your catalog and reserving materials to renewing a library card, and robust customization means the library brand is always front and center.

CapriAMobile allows you to embed tutorials seamlessly into your own website. As electronic resources evolve over time, we keep the tutorials up to date so you don’t have to worry about it. in the system allowing staff to perform daily functions from anywhere. MyPC integrates with PaperCut & both are compatible with Windows & MAC on a SQL platform for cumulative statistical reporting. PaperCut offers anonymous printing & automatic login, real-time fleet management leaving IT’s open to all output devices & vending kiosks from any location. Features standard windows printing, using standard. Centrally submitted print jobs can be released anywhere within the system for Follow-Me printing.

Today’s Business Solutions, Inc.

TRANSPARENT LANGUAGE ONLINE
Transparent Language Online includes 116 foreign languages, plus English for speakers of 22 other languages. In addition, Transparent Language Online includes Intermediate English for Everyone, as well as 83 non-English parsed languages. In total, Transparent Language Online includes courses and lessons in the 232 language pairs (260 including the transliterated forms). The courses and lessons in the program help learners develop listening, speaking, reading, and writing skills through a variety of different activities.

Transparent Language Online is the only major language-learning system that includes alphabet courses that support the learning of non-Latin alphabets. These courses strengthen a learner’s knowledge of the foreign alphabet by walking them through a series of lessons and activities that instruct the name of each letter, common sounds, various forms or uses of each letter, and typing of the letters on a standard keyboard for the language. These alphabet courses are available in over 35 languages and growing, including Arabic, Dari, Farsi, Hebrew, Hindi, Japanese, Korean, Russian, Tagalog, Thai, Urdu, and Wolof.

As a fully mobile-responsive program, Transparent Language Online is accessible on tablets, phones, and computers and is appropriate for academic, business, or travel purposes and for use by learners in grade 3 through adult. KidSpeak is a program that provides essential skills, learn coding skills, and more! All content is fun, interactive, easy to navigate and extremely engaging for the users.

Tutor.com

TUTOR.COM LEARNING SUITE FOR LIBRARIES
For 20 years, Tutor.com has been honored to partner with libraries to provide their communities high-quality, 1-on-1 academic and career support. The Tutor.com Learning Suite is designed to meet the needs of all learners. It’s easy to use (with no apps to download) and robust enough to provide sophisticated functionality. With their library card, patrons can access:

• 1-to-1, online-on-demand tutoring with fully vetted expert tutors and career coaches in 100+ subjects and test-prep areas;

• 24/7 drop-off reviews of writing assignments, math problems, cover letters, and resumes;

• Video lessons for math/ELA and AP® Biology, Calculus, U.S. History, and World History;

• The Princeton Review SAT®/ACT® Essentials with practice tests, drills, video lessons, and detailed score reports;

• The Princeton Review practice tests for GMAT®, GRE®, LSAT®, and MCAT®.

Tutor.com practice quizzes for ASVAB, math, science, and English; Tutor.com SkillsCenter™ Resource Library.

Optional access to session history and favorite tutors.

New this fall, we offer student and parent coaches for student success. More than a third of our library partners have been working with us for 10+ years. We deliver what one partner dubbed “the highest quality of service and customer support.” Students write that Tutor.com is “a lifesaver,” “amazing,” “excellent”—and “very helpful, especially during COVID times.” Together with libraries, we help all learners realize and then reach their full potential.

TODAY’S BUSINESS SOLUTIONS

Today’s Business Solutions, Inc.

The TBS-9900 Payment Kiosk Series features a reduced footprint. This print release system does not require a computer for print release or large cabinets, maximizing valuable floor space. The kiosks consist of coin, bill & credit card payment options along with a PDA device that controls access & enforces payment for copy, print, scan, and fax all from a single vending device. The kiosk is sturdy & works well in a public environment with clean cable manage- ment. Giving patrons one user interface to conduct their transaction, simplifying the entire process.

These units feature a secure PCI compli- ant credit card terminal. Credit card transac- tions are processed on a secure cellular network at a low micro-transac- tion rate per swipe with no minimum fees. Each terminal supports EMV Chip, Swipe, NFC (Apple Pay, Android Pay & More). Optional upgrades include a high capacity coin tubes & bill recycler that gives back change in coin & bill, enabling users to utilize larger bill denominations without depleting the tower. This system automati- cally replenishes itself with coin & bills, alleviating staff from having to constantly be filling the coins & bills within the kiosk. Audit receipts can be printed from the TBS-Kiosk to reconcile funds and to ac- count for all financial activity conducted at each kiosk, as well as providing central- ized reporting for verification of activity.

AFTER SCHOOL EDGE PLATINUM

AFTER SCHOOL EDGE PLATINUM is a fun and engaging digital learning re- source for students age 6-12. ASEL Platinum has brand new avatars, animated interfaces (beach, arctic, and robotics themes), and a brand new content suite offering more than 75 multi-curricular and award-win- ning educational software titles. As a plug-and-play workstation, ASEL Platinum does not require an internet connection, creating a safe and locked down learning environ- ment for users in the library.

Content is categories by STREAM sub- jects (Science, Technology, Reading, Engi- neering, Arts, Math). Students can read or listen to books (fiction, non-fiction, and poetry), practice their handwriting (including cursive), learn about cyber safety with Garfield comic books, improve their typing skills, learn coding skills, and more! All content is fun, interactive, easy to navigate and extremely engaging for the users.

ASEL Platinum is available as an all-in-1 20-inch touchscreen tablet device and is ideal for independent or collabora- tive learning. Libraries also receive home-schooling and programming resources to help integrate into weekly lesson plans and events. With access to the Customer Portal, libraries can track usage and illus- trate their return on investment. Libraries can increase the number of titles offered on the unit by purchasing an Add-On Bundle, including coding!

Just like you, all librarians strive for excellence in their library. Librarians have great success with quality data, making circulation and discoverability a breeze with BestMARC by creating cataloging processes for editing and enhancing MARC records. BestMARC, the best in class, cloud-based MARC management solution makes processing and maintaining MARC records fast, easy and convenient.

Create new records from the built-in record source, or cataloging from scratch with:
- Automated error checking
- Subject Explorer to find and add new point and shift. Schedules can be shared between multiple departments, locations, and branches, so managers throughout the library system always know which employees are scheduled and where they are assigned to work. Employees can submit cover, swap, time-off, and other the sale requests online. Managers can accept or deny the request, the schedule is immediately updated to reflect changes, and affected employees are notified. Managers can send messages to individuals, all employees, or a select group of qualified and available staff members or volunteers about open shifts, additional hours, or anything else they need to know. Additionally, the software tracks certifications and training, manages shift rotations and staff availability, and can estimate labor costs. Free trial accounts are available, and pricing is based on the number of employees scheduled.

SMART KIOSK

Library management has been adding our Smart Kiosks self-service payment options to move money handling away from staff, but with the recent pandemic, this is even more essential. Smart Kiosks offer self-service for all payments and services, such as, PC sign-up, ILS related payments, and printing from library PCs and patron owned mobile devices. Patrons can manage their accounts, purchase merchandise, pay for copies, faxes, scan/print, pay fines & fees, and make donations. Every payment made without staff involvement yields true cost savings and allows for social distancing at the same time! Self-Service Smart Kiosks are an easy and convenient way to accept and manage payments for services and goods offered in the library. Smart Kiosks integrate fully with Smart Terminal credit card readers so

CARL•CONNECT DISCOVERY

In today’s world, users require a convenient, intuitive experience and CARL•Connect Discovery delivers. Powerful search and relevancy ranking with predictive suggestions and a customized display of results allow within a responsive and eye-catching design are the foundation. But that’s just the beginning.

Patron-driven services are at the forefront of CARL•Connect Discovery, providing library staff with innovative ways to serve an ever-evolving community of patrons. Continuing the trend of innovation, recent versions have introduced FRBR/Grouped Title Displays into CARL•Connect Discovery for Desktop and Mobile. By utilizing TLC’s proprietary data matching algorithm, a search for “Pride and Prejudice” will not require users to sift through numerous records separated by format to find the result they want. Now every possible format is grouped under one result, not only enhancing the library’s user experience within the discovery layer but exposing more of a library’s collection to the public, which increases circulation. FRBR/Grouped Title Displays improve the usefulness of the catalog, alleviate sorting through multiple single results for the same title, and offer a clear view of what editions/formats are owned by the library to create a better searching experience for patrons and staff alike — all through dynamic content updates that can be influenced by library staff.

**CAPIRA CURBSIDE**

Simple curbside pickup solution that delivers the convenience people expect. CapiraCurbside is a simple curbside pick-up solution that integrates with a library's ILS to efficiently manage distribution of materials. It meets community expectations with a convenient option to get the resources they need when and how it makes sense for them, without adding work for library staff.

- Meets expectations: Stay ahead of changing community needs and expectations with more choices for how people interact with your library, without adding work for staff.
- Customizable: A simple curbside pickup solution that's customizable to meet specific library and user preferences, including the option for SMS alerts when items are ready and staff notification when people have arrived for pick up.
- Convenient: Empower library users to schedule and pick up materials and receive alerts in ways that make sense for them. CapiraCurbside delivers a flexible and seamless user experience from start to finish.
- Contactless experience: Give staff and library users peace-of-mind during the COVID-19 pandemic with a true contactless pickup experience that's quick, efficient, and convenient.
- Built-in analytics: Boost your library’s value as you manage the increase in community usage efficiently and proactively—with the ability to make more informed decisions as circumstances shift. [Click here for more]

**SMARTALEC**

SmartALEC supports library and guest credentials for mobile printing from patron devices! Using your library card supports the importance of library services while creating a unique identifier for retrieval of patron print jobs. SmartALEC features an APP and web portal to upload print jobs to SmartALEC’s secure cloud service. Once the job is uploaded from anywhere, the patron can go to any branch using their credentials to download their print job from the SmartALEC secure cloud service to release it.

Many libraries are using SmartALEC for remote printing with curbside pickup as an essential service when closed and even when they reopen. Since SmartALEC is hosted by Comprise there is no need to worry about capacity. Come join our libraries in offering SmartALEC as remote printing with curbside pickup! [Click here for more]

**Thank you, Judges!**

The following companies would like to thank the Modern Library Awards’ librarian judges for their votes and for volunteering their time to be a judge in this program.

Visit aweplatinumonline.com to learn more about our NEW cloud-based early learning resource. Platinum Online offers 175+ educational titles with a single login!
We are honored to be recognized again this year.
Reducing any need for curbside distribution and giving library patrons true 24/7 touchless access to their books.
